

DOMAIN REGISTRATION CANCELLATION

Is the process by which the owner and / or the operator request the cancellation of the enrollment of the domain of the aircraft as a result of its sale abroad; For loss or destruction of this, or for any other reason when appropriate, and is practiced in the registration of Aircraft and Property.

The process indicated in the preceding paragraph can be carried out by the user who is empowered to carry out this procedure (owner, tenant or a third party, as appropriate), either in a face-to-face or remote route through the email registro.aeronaves@dgac.gob.cl. The requesting must present the following background:

- Application to the National Aircraft Registry indicating the reason for the cancellation of enrollment and, when appropriate, to point out the state where the aircraft will be enrolled or registered.

This request must be completed by the owner of the aircraft or by the operator of the aircraft and authorized before a notary public.

- Notarial statement of the creditor in which he manifested that he gives his consent for the cancellation of enrollment, when the aircraft is taxed with a mortgage or with privileged loans, as provided by article 43 of the Aeronautical Code.
- Payment of the rights of processing (marginal annotation), according to the amounts indicated in Article 39 of the Aeronautical Rate and Rights Regulation.
